

The school and its work equipment

Before the school starts, the teacher will give you a list with all required materials for school. For example folders for each subject, materials for writing (like pencils, colored pencils, ruler, rubber, pencil sharpener, pencil case,...), ruled and squared papers and much more.

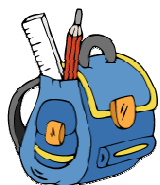

School textbooks the children get free of charge in school. But they are just lent and have to be given back at the end of the school year. Therefore they have to be handled with care. If the textbooks are damaged at the end of the school year, you will have to pay for them.

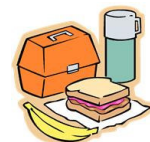

For certain subjects like physical education, arts, or handicrafts your child needs further materials:

- sports bag with sports shoes for in- and outdoors & long and short sportswear for physical education
- sketch pad, paintbrushes and colors for arts
- scissors, glue and an apron for handicrafts

To transport all these materials your child needs a stable schoolbag/satchel (no rucksack). In addition your child should have a lunch box and a drinking bottle in its schoolbag.

At the beginning of the new school year there might possibly be some additional small charges for copies and other materials for arts and handicrafts.
