

Special education and training guidance in Saxony

To provide a good start into the Saxon school system for children, juveniles and young adults, a special education and training guidance is offered for all immigrants up to 18. The purpose of this consultation is to inform about the different possibilities of education and to give support with the personal education decision. It is also possible to talk about the recognition of qualifications.

Grundschule (Primary school)

For pupils in primary school, the special education and training guidance takes place in the school.

Oberschule und Berufsschulzentrum (Middleschool and vocational school)

For pupils in the secondary stage the special education and training guidance takes place in the „Landesamt für Schule und Bildung“.
